Dan Wesson
THE INNOVATORS

THE SYSTEM

Innovators have no limitations. We seek out the new, the improvements, the refinements. We incorporate in Dan Wesson designs whatever will make your revolver more out-of-the-box accurate, more adaptable to your needs, more shooting reliable. This year all Dan Wesson calibers have a newly patented, interchangeable rear sight blade so you can change your sight picture, from narrow notch to wide notch, with the tool provided. Rear sight is screwdriver adjustable for windage and elevation as well. As gun prices have risen over the years, the exclusive interchangeability of Dan Wesson barrel assemblies has made Dan Wesson revolvers a better value. You can keep the fine balance and trigger action you like and simply and inexpensively change barrel length or shroud configuration to what you want. Also new this year is the Dan Wesson .357 Super Mag, chambered for .357 Maximum loads. This gun already has been scoring high in IHMSA matches.

Moreso than any other revolver you can buy, Dan Wesson calibers have no limitation, giving you all the gun you want now, plus what you may want in the future.

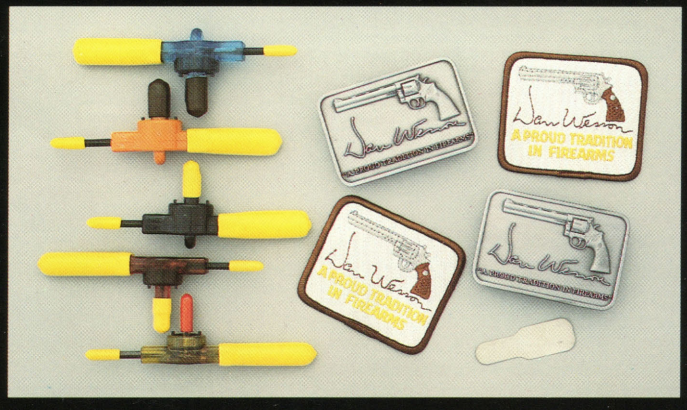
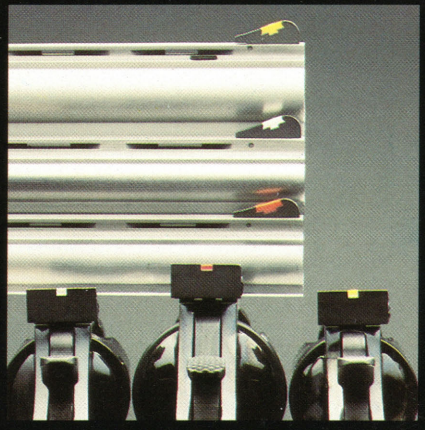
Dan Wesson wrench kits, belt buckles, and patches
Each Dan Wesson revolver is shipped with a combination wrench for field stripping and changing barrel assemblies. Included is a precise feeler gauge for setting proper tolerance between barrel and cylinder when changing barrel assemblies.

Heavy, special alloy buckles look and feel like pewter. Patches are richly embroidered in Dan Wesson colors.



SAFETY FIRST AND ALWAYS!
Enjoy shooting your Dan Wesson revolver, follow these gun safety rules:

1. Read and follow instructions regarding handling and use of firearms.
2. Treat every firearm as if it were loaded.
3. Always keep muzzle pointed in a safe direction and under control.
4. Keep cylinder open until ready to load and shoot.
5. Know your gun and ammunition.
6. Be sure of your target and backstop.
7. Always hold your revolver by the grip and keep both hands clear of and behind the cylinder.
8. Never drink alcoholic beverages or take medication or drugs before or while shooting.
9. Always store your firearms unloaded, in a locked container, separate from ammunition.
10. Keep all firearms out of reach of children.



Patented Dan Wesson Sights
With the turn of a screwdriver, you can adjust Dan Wesson rear sights for windage and elevation. And you feel and hear each click. You can even choose interchangeable narrow notch rear blades or white .125 notch blades. Dan Wesson front sights have interchangeable colored inserts. Red is standard, yellow, white and a black steel patridge sight are also available. Specify preferences on orders.
